

**Apple Summer Camp
2019
Session II - Week I
Jr. Space Camp**

Monday June 24

Solar Systems

Bring lunch, water & sunscreen.

Snack provided by **Apple**

We'll start off the day decorating stars and building a giant sun. Then take a trip aboard the Apple rocket and explore our solar system. We'll look at things like asteroids, comets and meteoroids. Later, we'll land at and start work on the Apple Space Station. In the afternoon we'll cool our jets with Astro Pops and read the book, *Skippy Jon Jones Lost in Spice*.

Tuesday June 25

Mercury and Venus

Bring lunch, water & sunscreen.

Snack provided by _____.

We will be constructing space scenes in the morning with stickers. Later, we'll learn about the two planets closest to the sun. In the afternoon play a game of hot planet. We'll end the day writing a story about survival on these hot planets.

Wednesday June 26

The Earth and Mars

Bring lunch, water & sunscreen.

Snack provided

by _____.

In the morning we'll create shaving cream Earths. Later, we'll learn a little bit more about Earth and its sister planet Mars. Next, we'll talk about the possibility of life on Mars. In the afternoon, we will break into groups, and design our own "martians". To end the day, we'll pretend to spend the afternoon on Mars, exploring the "Red Planet"

Thursday June 27

Jupiter and Saturn

Bring lunch, water & sunscreen.

Snack provided by _____.

Today we will create our own gas planets using sand. Next, we'll spend some time learning about and exploring these dusty planets. Later, we will play an out of this world game of Saturn ring toss and see who will be crowned victor of the universe.

Friday June 28

Uranus & Neptune

Bring lunch, water & sunscreen.

Please bring your favorite ice cream topping to share

Snack provided by _____.

We will recreate these cold planets with some ice painting in the morning. After, we will get a chance to learn a little more about these frigid, far off planets. Later, we'll enjoy an epic outer space performance. We will end the day making our own ice cream and making out-of-this world sundaes.

Summer Camp

2019

Session II - Week II

Space Explorers

Monday July 8.

Bring lunch, water & sunscreen
Dwarf Planets and Moons

Snack provided by

Apple. In the morning we will make moon art. Later, we will learn about what happened to Pluto. We will talk about what makes a dwarf planet. Next, we will break into groups and vote about whether or not Pluto should still be a planet. In the afternoon we will explore the many moons of our solar system. We'll end the day with an epic moonwalk battle.

Tuesday July 9

Asteroids and Comets

Bring lunch, water & sunscreen

Snack provided by _____.

Our morning will start with asteroid building and comet painting. Later, we'll learn about the difference between comets and asteroids. Later we will close the day by playing a few rounds of asteroid toss and creating a comet and asteroid mural.

Wednesday July 10

Astronauts and NASA

Please bring lunch, water & sunscreen.

Snack provided by _____.

Today we will learn about what it's like to be an astronaut and we will learn about what it's like to work at NASA. In the

morning we will create parts to build a rocketship and command center. Later, we will launch into space in our rocket. In the afternoon we will have space shoe races and see which astronaut can travel the fastest. We will end the day enjoying some astronaut ice-cream. It will be out of this world!

Thursday July 11

Space Station Fun

Field Trip Nature Walk 1-2pm

All Students at Apple by 1pm

Bring lunch, water & sunscreen.

Snack provided by _____.

In the morning we create our own telescopes to examine the galaxy. Later we will spend the day on board our space station, working like the astronauts. In the afternoon we will venture out into the wilds of space with our telescopes and search for new discoveries.

Friday July 12

Aliens

Bring lunch, water & sunscreen.

Dress like an alien

Snack provided by Apple.

In the morning we'll create flying saucers. Later, design an alien habitat and play a game of "Alien Says." In the afternoon we will have flying saucer races using the flying saucers we made in the morning. We will close the day making alien cookies and enjoy eating them while reading "Aliens Love Underpants".
